Career Objective

Aspiring Web Developer aiming to apply in Frontend Web Developer and Problem-Solving while continuously learning and contributing in a fast-paced, innovative environment.

Education

Bachelor of Technology in Computer Science & Engineering September-Present
United Institute of Technology, Prayagraj CGPA:7

Senior Secondary (XII-UP BOARD) 2023
J.R.P Inter College, Rampur Jaunpur Percentage:70%

Secondary (X- UP BOARD) 2021
J.R.P Inter College, Rampur Jaunpur Percentage:89%

Experience

IBM PBEL Virtual Internship in AI July-August 2025
>Completed hands-on training in Machine Learning (Python library, Jupyter, Anaconda)
>Developed dynamic website and improved backend and frontend integration through practical projects,

Python For Data Science August-2024
United Institute of Technology, Prayagraj
>Gained practical knowledge of Object-Oriented Programming (OOP) and Python concepts through mini projects.
>Strengthened Problem-Solving ability and improved coding best practices through structured training.

Projects

Salary Prediction | Machine learning | Python libraries August-2025
>Implemented using python libraries in Jupyter for backend
>Optimized HTML, CSS for making websites frontend

Certifications & Achievements

>Hackathon Certification from IIT Kanpur August-2025
>Generative AI Certification from IIT Kanpur August-2025
>Data Analytics Certification from IIT Kanpur August-2025
> AI Tools & ChatGPT Certification July-2025
>Python Certification July-2025
>Startup Confluence Certification 9 December-2024
> NxtWave workshop on Generative June-2024

Skills

Programming Languages: C, Python, ML, Java

Web Technologies: HTML, CSS.

Tools/Technologies: Visual Studio Code, Anaconda, Jupyter.

Relevant Coursework: Data Structure & Algorithm, OOPs concept, Operating system.

Soft Skills: Team Work, Time Management, Leadership.

Interest Area

Badminton
